

How the Delta Dental of Washington Premium Relief is calculated

To calculate the premium relief we take the 'Current Census' from the prior month's invoice x 25%.

Prior Invoice (for this example, the invoice was generated in May for June Coverage):

Invoice Summary section:

Invoice Summary		Coverage Period:06/01/2020 through 06/30/2020
Changes received after the Invoice Date will appear on next month's invoice.		
00	Prior Balance	\$
00	Current Census	\$3,584.11
00	Retroactive Adds	\$
00	Retroactive Terminations	\$
	Current Balance	\$

In this example, we used:

- \$3,584.11 (prior month's Current Census) x 25% = \$896.03 (premium relief applied to current invoice)

Current Invoice (for this example, the invoice was generated in June for July Coverage):

You will see the premium relief displayed in two different sections on your invoice as noted below.

Invoice Summary section:

Invoice Summary		Coverage Period:07/01/2020 through 07/31/2020
Changes received after the Invoice Date will appear on next month's invoice.		
00	Prior Balance	\$
00	Payments Received	\$
00	Current Census	\$
00	Retroactive Adds	\$
00	Retroactive Terminations	\$
00	Adjustments	-\$896.03
	Current Balance	\$
